TESTIMONIAL

My son Peter has been attending the Teens in Motion after school and camp program through Toby Wells. He is slowly coming out of his shell, and the YMCA has fostered that. He likes the interaction, the environment, the fitness—that's really what drew me to the program is that he is able to get more physical activity and exercise as well as being out and about in the community. His communication skills and energy level have improved. His friends, the other students there, are having a lot of fun and all know each other well. These kids, kids like Peter, and their families, need the Teens In Motion program.
